

# Kimi Chen

陈俊哲

AI Application Developer

chen.junzhe2000@qq.com | github.com/KimiChen2000 | QQ 1090402233

PROFILE

AI application developer with a background in computer science and mathematics. Focused on large language model applications, fine-tuning, deployment, and machine learning. Driven by curiosity about new technologies and the patterns that emerge from numbers and combinations.

EDUCATION

Boston University

M.S. in Computer Science | 2024.09 - 2025.12

Coursework: Algorithms, Machine Learning, Operating Systems, MySQL.

University of Arizona

B.S. in Mathematics | 2019.09 - 2023.12

Coursework: Linear Algebra, Discrete Mathematics, Numerical Analysis, Formal Languages.

TECHNICAL SKILLS

AI applications

Dify, Agentic RAG, Prompt Engineering, Structured Output

Model engineering

LLaMA-Factory, LoRA, PyTorch, vLLM, Docker

Algorithms & development

Python, Machine Learning, MySQL, React, JavaScript

EXPERIENCE

China Telecom Fufu

AI Application Developer | 2026.08 - Present

Fuchang Weikong

Algorithm Engineer Intern | 2024.05 - 2024.08
